## INTER-CORPORATE OWNERSHIP

The Corporations and Labour Unions Returns Act, Chapter 26, 10-11 Elizabeth II was passed by Parliament in April, 1962. The Act is administered by the Dominion Statistician under the authority of the Minister of Trade and Commerce. The purpose of the Act is to collect financial and other information on the affairs of corporations and labour unions carrying on activities in Canada. Such information was considered necessary to determine on one hand the extent and effects of non-resident ownership and control of corporations in Canada and on the other hand, the extent and effects of the association of Canadians with international labour unions.

Part I of the Act, dealing with corporations, applies only to corporations whose gross revenue during a reporting period exceeds \$500,000 or whose assets exceed \$250,000. Crown corporations and corporations operating under the authority of such Government of Canada statutes as the Canadian and British Insurance Companies Act, the Trust Companies Act, the Loan Companies Act, the Small Loans Act, the Radio Act and the Railway Act are exempt to avoid the duplication of returns where substantially the same kind of information was felt to be available under other federal legislation.

The corporation returns are divided into confidential and non-confidential sections. The non-confidential section of the return includes information on the incorporation, officers and directors and ownership of the corporation's issued share capital. The confidential section of the return includes financial statements similar to those required under the Income Tax Act and a schedule of selected payments to non-residents.

The returns are made in the first instance to the Dominion Statistician. The Act provides that the non-confidential part, Section A of the return filed by each corporation shall be kept on record in an office of the Department of Consumer and Corporate Affairs, to which one copy is forwarded by the Dominion Statistician. Any person is permitted to inspect these copies upon payment of a nominal fee. Section B of the corporation return remains in the control and custody of the Dominion Statistician and is not available to any person other than an official or authorized person as described in the Act. A copy of the Act, Regulations and the Reporting forms are included.

This publication has been prepared from the Section A, non-confidential part of the returns submitted by corporations for their fiscal years ending in 1965. Specifically, the information required to be reported under Sections 4(a)(i), 4(a)(ii), 4(a)(v) and 4(a)(vi) of the Act has been used to link the ownership of shares of the corporations. This linkage of corporations has been based on the inter-corporate ownership of the voting rights attaching to various classes of shares.

Under Item 11 and 13 of the Section A reporting form, corporations report the classes of shares authorized and outstanding, the voting rights attaching to each class of shares and the number of shares issued and outstanding to shareholders with addresses in Canada, outside Canada and with no address of record. In addition corporations report under Item 15, the name and address of each corporation owning 10% or more of any class of issued shares. In this publication, the corporations which hold 10% or more of the votes of another corporation are called "holding corporations". The corporations whose shares are owned by a holding company are called the "reporting corporations". It is possible for a corporation to be both a "reporting corporation" and a "holding corporation" by having 10% or more of the votes attaching to its issued share capital owned by another corporation and by owning 10% or more of the votes attaching to shares issued by another corporation.

### Ownership Complexes

Corporations, which had common ownership by another corporation or were linked together in "reporting corporation-holding corporation" relationships were grouped together to form ownership complexes. Corporations were grouped when there existed inter-corporate ownership of voting rights of 10% or more.

The inter-corporate ownership complex begins with a holding corporation in which no reporting corporation owns over 10% of the voting shares. This group of corporations includes a number of foreign incorporated companies which are not reporting corporations but are corporations holding more than 10% of the voting shares of a reporting corporation. The symbol "X" following the name of the holding corporation indicates that the corporation was incorporated in Canada but was not considered to be a reporting corporation for 1965. The symbol "R" indicates that the holding corporation is involved in another ownership complex. The number following the symbol "R" indicates that the corporation has an important involvement in the other complex.

The code in the "status column" indicates the mailing address of the head office of the corporation, which is, in most cases, within the country in which the firm is incorporated and is therefore taken to indicate the country of incorporation. The codes used are as follows: 1 - United States, 2 - United Kingdom, 3 - Other Western European Countries, 4 - All other countries excluding Canada, 5 - A foreign country not identified, 6 - Canada and 7 - unspecified including nominee companies, trusts, partnerships, etc.

The alphabetical index contains the names of all reporting corporations and holding corporations that have been used in the preparation of the inter-corporate ownership. The number that is given for each corporation name in the index indicates the ownership complex in which that corporation is involved. In a number of cases more than one complex number is given, indicating that the corporation is involved in more than one complex. One of these numbers, if underlined, indicates the major ownership grouping to which that corporation belongs.

#### Reporting Corporations

The act applies to every corporation authorized to do business in Canada regardless of the jurisdiction within which the organization is incorporated except a corporation that is one of a class of corporations specified in the Schedule to the Act. There are a number of corporations that are incorporated outside of Canada but because of their operations in Canada are reporting corporations under the Corporations and Labour Unions Returns Act. The exempt corporations are generally those that provide similar information under Government of Canada regulatory legislation, that are government-owned, that are non-profit organizations or that are smaller than the minimum size specified in the Act.

#### Effects of Different Fiscal Year Ends

Corporations were required to report under the Act for their fiscal years ending in 1965. These fiscal year endings may have occurred anytime in the calendar year 1965 and may have been different for any two corporations in an ownership complex. Therefore, if a corporation (A) stated that at its fiscal year end (January 31, 1965) another corporation (B) owned 10% of the votes attaching to its shares and if corporation (B) stated that at its fiscal year end (December 31, 1965) another corporation (C) owned 10% of the votes attaching to its shares, there is uncertainty as to whether a relationship of C owns 10% of B who owns 10% of A, truly existed at any point in time. This uncertainty results from the possibility that in the interval of time from January 31, 1965 to December 31, 1965, Corporation (B) may have disposed of its holding of shares of Corporation (A). As a result some of the ownership complexes shown in this publication may never have existed at a particular point in time.

#### Nominee Ownership

Nominee ownership exists when an organization, either incorporated or not incorporated, holds shares of a corporation for the beneficial ownership of a third party. When such an organization held shares of reporting corporations, they were not considered to link the ownership of the corporations in which they held shares.
